PROFESSIONAL SUMMARY

Customer-focused and technically proficient Information Technology professional with hands-on experience in hardware deployment, virtualization, and resolving complex technical issues. Adept at providing walk-up technical support, maintaining network availability, and communicating technical solutions to non-technical users. Passionate about building infrastructure labs to ensure system readiness and eager to leverage a strong background in customer service to deliver exceptional Tier 1 IT support.

TECHNICAL SKILLS

Support & Administration: Windows 10/11 Troubleshooting, Active Directory concepts, Hardware Validation, Virtualization (VirtualBox, VMware), Linux CLI.
Networking & Security: TCP/IP, DNS, DHCP, Network Troubleshooting, Windows Firewall, OPNsense Router Configuration, MAC Address Authentication.
Soft Skills: Customer Service, De-escalation, Technical Communication, End-User Training, Issue Resolution, Issue Escalation.

PROFESSIONAL EXPERIENCE

GameStop Highland, IN
Sales Associate 2023

- Provided high-quality customer service in a fast-paced retail environment, identifying customer needs and recommending appropriate consumer electronics and gaming technology.
- Operated Point-of-Sale (POS) systems efficiently, processing transactions and managing inventory control accurately.
- Communicated complex product specifications and technical requirements to laypeople, ensuring customer comprehension and satisfaction.
- De-escalated and resolved customer complaints regarding hardware malfunctions and software compatibility issues with a calm, solutions-oriented approach.

Lake Central High School St. John, IN
Student IT Support Technician 2021 – 2022

- Provided Tier 1 walk-up technical support to end-users, delivering immediate on-the-spot troubleshooting and resolving hardware and software issues.
- Diagnosed and resolved wireless network connectivity issues, specifically managing MAC address authentication settings on iOS devices to comply with security requirements.
- Translated technical instructions for non-technical users, ensuring clear communication and quick issue resolution.
- Evaluated issue complexity and escalated unresolved, out-of-scope technical problems to senior IT staff with detailed troubleshooting context.

INFRASTRUCTURE & IT PROJECTS

Home Network & Infrastructure Lab

- Configured an internal lab network utilizing VirtualBox and OPNsense, effectively managing local network resources and custom traffic routing.
- Implemented Windows Firewall rules and experimented with network segmentation to isolate systems and harden local machines against unauthorized access.
- Documented system configurations and troubleshooting steps to simulate enterprise-level IT environments.

Linux Web Server Deployment

- Configured legacy hardware into a dedicated Linux web server, establishing baseline OS hardening and reliable remote management.
- Implemented secure SSH access and managed system-level administrative controls to enforce secure user access policies.

EDUCATION & CERTIFICATIONS

Ivy Tech Community College Columbus, IN
Associate of Applied Science in Cyber Security / Information Assurance 2024 – 2025

- **GPA:** 3.0
- **Relevant Coursework:** IT Support, Linux and Windows Administration, Business Continuity, Cyber Security.
- **Certifications:** CompTIA Security+ (Aug 2025), Technical Certificate in SOC Specialist (July 2025).
