PROFESSIONAL PROFILE

Dedicated Cybersecurity professional equipped with a Technical Certificate as a SOC Specialist and CompTIA Security+. Highly skilled in vulnerability assessment, incident response preparation, and secure infrastructure design. Adept at utilizing monitoring tools to analyze system anomalies and identifying critical configuration flaws to fortify digital assets.

CORE COMPETENCIES

- **Security Analysis:** Vulnerability Scanning, Network Security, Packet Analysis, Incident Response.
- **Security Tools:** Wireshark, Nmap, Nikto, Burp Suite, iptables.
- **Networking:** TCP/IP, DNS, DHCP, Segmentation, OPNsense.
- **Systems & Monitoring:** Linux CLI, Windows Firewall, Grafana, InfluxDB.

SECURITY & GRC PROJECTS

Enterprise Security Policy Development (GRC Focus)

- Drafted a comprehensive mock corporate security policy for Honda, integrating Governance, Risk, and Compliance (GRC) frameworks.
- Outlined business continuity procedures and incident response protocols to align with industry best practices and ensure system resilience.

Vulnerability Assessment Labs (HTB & VulnHub)

- **Vulnerability Scanning:** Utilized Nmap and Nikto to systematically identify open ports, misconfigured services, and unpatched OS versions across diverse Linux and Windows targets.
- **Security Analysis:** Analyzed legacy vulnerabilities (e.g., SMB exploits on Kioptrix) to understand patch management lifecycles and develop practical mitigation strategies.

Home Network Hardening (Security & Segmentation)

- Configured Windows Firewall rules and established strict network segmentation protocols to harden local machines against unauthorized internal and external access.
- Architected an internal lab utilizing VirtualBox and OPNsense, securely routing custom traffic via iptables.

Linux Web Server Configuration (In Progress)

- Provisioning legacy hardware to operate as a secure Linux web server, focusing on baseline OS hardening, user access controls, and service configuration.

RELEVANT COURSEWORK

Cyber Security | Business Continuity | Ethical Hacking | Linux and Windows Administration | IT Support

EDUCATION & CERTIFICATIONS

Ivy Tech Community College, Columbus, IN
Associate of Applied Science in Cyber Security / Information Assurance

July 2025

GPA: 3.0

- **Certifications:** CompTIA Security+ (Aug 2025), Technical Certificate in SOC Specialist
